

SPECIALIZED FURNITURE

SAIFOR has more than 30 years of experience in designing and manufacturing technical furniture and consoles for Control Rooms and Command Centers.

wideSTAR 24/7

Widestar 24/7: Regulates your ergonomics. The sit/stand console enables to change the body position without leaving the workstation, giving more energy to the operator to focus on his task. Specially designed for 365x24x7 Mission Critical environments.

VDS

Built to fit your technology. **VDS** consoles shape any control room environment. From infinite possibilities of equipment integration to the minimalist design when the equipment is remotely installed. The limit is your imagination.

LIFT.STAR

Liftstar: Design and ergonomics. It combines productivity and wellness with a modern design. Especially designed for those centers where design is an essential requirement. It satisfies the needs in a Control Room with the maximum ergonomics.

TF7

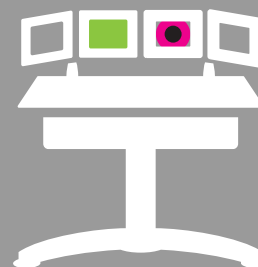

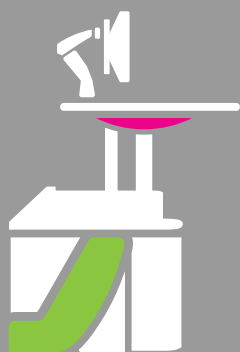

TF7. Moving in a natural way. Sit / stand console that adapts to any type of control room where ergonomics and dynamism prevail. Sturdiness, ergonomics and design together and affordable. With all the guarantee of Saifor.

wideSTAR

Widestar: A custom fit. Console with avant-garde style that includes a modern and futuristic design of simple lines. A robust and compact design, with great capacity for equipment. With a totally modular design that allows to accommodate a high density of equipment and structured wiring, in an orderly and safe way.
